- Summary** : The goals of the European Society of Gastrointestinal Endoscopy (ESGE) have always been underpinned by the fundamental aims of increasing quality of care, establishing guidelines for best practise and developing educational programmes.
Over the past years, the ESGE has grown steadily with regards to both scope and following. With an individual membership base approaching 2000 physicians, we feel that the time is right to launch an ESGE annual event, specifically developed with our membership in mind. Our first congress, ESGE Days 2018, will provide an ideal interactive arena to discuss, debate and disseminate. Join us in Budapest for the long awaited, inaugural ESGE Days Congress.
