Prof Hisao Tajiri

Japan Gastroenterological Endoscopy Society

Mabuhay!

The Philippine Society of Digestive Endoscopy (PSDE), in partnership with the World Endoscopy Organization (WEO) will be hosting a Program for Endoscopic Teachers (PET) course in Manila on October 11, 2018. This course was initiated by WEO in 2013 and has since been held around the globe. The PET is a program designed to “train-the-trainers” in digestive endoscopy worldwide. The PET aims to help active teachers/trainers enhance their teaching skills in GI endoscopy lectures, hands-on demonstrations and focused discussions. Drs. Bret Petersen (USA), Nageshwar Reddy (India), and Christopher Khor (Singapore) comprise the faculty for the Manila course. This will be held at the Manila Doctors Hospital.

Recognizing this as a rare educational gem, the organizing committee has decided to extend invitations to our ASEAN neighbors. We are inviting your society to nominate 2 suitable participants for this course. They should be potential or established trainers in their country. The course is by invitation only and there will be no registration fee. Your chosen participants are also welcome to attend the ENDOSCOPYCON PHILIPPINES 2018 (October 9 & 10). Your participant’s hotel accommodation for the 3 day event will be arranged and shouldered by our society. However, they will need to make their own travel arrangements as this is not covered.

Should you find this invitation favorable, kindly provide us with the names of your nominees and a short CV no later than July 31, 2018 to facilitate planning.
