

UC Irvine is looking for a high quality Interventional Endoscopy fellow for the 2-year program starting July 2019, January 2020 or July 2020.

**Fellowship Overview:**

The fellowship is largely based in diagnostic and Interventional EUS but covers all other aspects of Interventional Endoscopy including:

- Advanced resection with EMR (and ESD Training)
- Barrett's Ablation (RFA, C2 cryotherapy, Hybrid APC, TruFreeze cryotherapy)
- Bariatric Endoscopy
- Endoluminal Stenting
- Endoscopic Suturing
- POEM training
- Transoral incisionless fundoplication
- STRETTA GERD therapy
- Advanced imaging with endomicroscopy
- Double Balloon enteroscopy
- New Device Development in the R and D Animal Lab

**MBA Opportunity:**

In addition, for one of our current EUS fellows we have arranged for him to complete a Masters of Business Administration from UC Irvine. Therefore, following his 2-year stay with us would have received both Advanced Endoscopy training as well as an MBA Degree. We are open to offering this opportunity to any of our 2-year fellowship candidates.

**Requirements:**

- USMLE Step 1 and 2
- Competency in ERCP
- Strong letters of support

**Funding:**

The position is a UC Irvine funded position through an unrestricted educational grant
