

IDEN 2013 KSGE-JGES

12 th KJSGE-Convention Hall A		
09:00 - 10:30 (90)	UGS-I : Long-term Outcome of Expanded ESD for Early Gastric Cancer	
		Moderators: Sang Yong Seol (Korea) Takuji Gotoda (Japan) Hyun Yong Jeong (Korea)
09:00-09:20	UGS-I 1 Do we have the solid ground for expanding indication ?	Takuji Gotoda Tokyo Medical University (Japan)
09:20-09:40	UGS-I 2 Long-term outcome of Expanded ESD for EGC with differentiated histology	Hwoon-Yong Jung University of Ulsan (Korea)
09:40-10:00	UGS-I 3 Long-term outcome of ESD for undifferentiated type EGC	Ichiro Oda National Cancer Center (Japan)
10:00-10:30	UGS-I D1 Case-based Discussion 1	Jae Young Jang Kyung Hee University (Korea)
	UGS-I D2 Case-based Discussion 2	Sung Kwan Shin Yonsei University (Korea)
10:50-12:40 (110)	LGS-II : Debates on Colorectal ESD	
		Moderators: Kyu Yong Choi (Korea) Hironori Yamamoto (Japan) Hyung Gil Kim (Korea)
10:50-11:10	LGS-II 1 Indication of colorectal ESD in Japan	Shinji Tanaka Hiroshima University (Japan)
11:10-11:30	LGS-II 2 Indication of colorectal ESD in Korea	Dong Kyung Chang Sungkyunkwan University (Korea)
11:30-11:50	LGS-II 3 Traction for effective dissection: gravity is enough	Bo-In Lee The Catholic University of Korea (Korea)
11:50-12:10	LGS-II 4 Traction for effective dissection: adjunctive methods are required	Yutaka Saito National Cancer Center (Japan)
12:10-12:40	LGS-II D1 Case-based Discussion 1	Dong-Hoon Yang University of Ulsan (Korea)
	LGS-II D2 Case-based Discussion 2	Nana Hayashi Hiroshima University (Japan)

14:00-15:24 (74)	GIF : ESD/EMR Forum I	
		Moderators: Jae J. Kim (Korea) Takuji Gotoda (Japan)
14:00-14:12	GIF-I 1 Causes of Missed Synchronous Gastric Epithelial Neoplasms with Endoscopic Submucosal Dissection: a Multicenter Study	Hyung Hun Kim The Catholic University of Korea (Korea)
14:12-14:24	GIF-I 2 Risk Factors of Multiple Gastric Neoplasms Developing after Endoscopic Resection	Joo Hyun Lim Seoul National University (Korea)
14:24-14:36	GIF-I 3 Clinical Significance of a Papillary Adenocarcinoma Component in Early Gastric Cancer: a Single-center Retrospective Analysis of 628 Surgically Resected Early Gastric Cancers	Masau Sekiguchi National Cancer Center Hospital (Japan)
14:36-14:48	GIF-I 4 What Is Tailored Minimally Invasive Treatment of Early Gastric Cancer Beyond Endoscopic Submucosal Dissection?	Mi-young Kim Soon Chun Hyang University (Korea)
14:48-15:00	GIF-I 5 Double-endoscope Endoscopic Submucosal Dissection for the Treatment of Early Gastric Cancer Accompanied by an Ulcer Scar	Satoshi Tanabe Kitasato University (Japan)
15:00-15:12	GIF-I 6 Non-exposed Endoscopic Wall-inversion Surgery (news) As a New Full-thickness Resection Technique for Gastric Tumor	Keiko Niimi The University of Tokyo (Japan)
15:12-15:24	GIF-I 7 Clinical Impact of Screening Colonoscopy for Patients with Early Gastric Cancer Treated by Endoscopic Submucosal Dissection: a Matched Case-control Study	Kenichiro Imai Shizuoka Cancer Center (Japan)
15:50-16:38 (48)	GIF : ESD/EMR Forum II	
		Moderators: Dong Kyung Chang (Korea) Yutaka Saito (Japan)
15:50-16:02	GIF-II 1 Endoscopic Tissue Shielding Method with Polyglycolic Acid Sheets and Fibrin Glue for Wound after Colorectal Endoscopic Submucosal Dissection	Yosuke Tsuji The University of Tokyo (Japan)
16:02-16:14	GIF-II 2 Endoscopic Submucosal Dissection for Colorectal Tumors: Clinical Outcomes and Factors of Technical Difficulties	Koichiro Sato Toho University (Japan)
16:14-16:26	GIF-II 3 Clinical Impact of Endoscopic Closure for Iatrogenic Perforations during Endoscopic Submucosal Dissection for Superficial Colorectal Tumor	Hiroyuki Takamaru National Cancer Center Hospital (Japan)
16:26-16:38	GIF-II 4 Mid-term Prognosis of Endoscopic Submucosal Dissection for Large Colorectal Tumors	Kinichi Hotta Shizuoka Cancer Center (Japan)
16:38-17:26 (48)	PBF : ERCP/EUS Forum II	
		Moderators: Young Soo Moon (Korea) Masayuki Kitano (Japan)
16:38-16:50	PBF-II 1 Evaluation for E R C P Using a Short Double Balloon Endoscope in Patients with Altered Gastrointestinal Anatomy: a Retrospective Evaluation of 473 Procedures	Masaaki Shimatani Kansai Medical University (Japan)
16:50-17:02	PBF-II 2 Endoscopic Papillary Large Balloon Dilation Alone Using Short Double-balloon Enteroscope for the Treatment of Difficult Choledocholithiasis in Patients with Roux-en-y Gastrectomy	Hirofumi Kogure The University of Tokyo (Japan)
17:02-17:14	PBF-II 3 One-step Transfistula Balloon Dilation Following Precut Fistulotomy in Difficult Biliary Cannulation for the Treatment of Choledocholithiasis	Gyu Jun Baik Soon Chun Hyang University (Korea)
17:14-17:26	PBF-II 4 Management of Difficult Biliary Cannulation in Ercp	Shigefumi Omuta Toho University (Japan)

14:00-15:24 (74)	PBF : ERCP/EUS Forum I (12th KJSGE)	Moderators: Ho Gak Kim (Korea) Takao Itoi (Japan)
14:00-14:12	PBF-I 1 Antireflux Metal Stent for Recurrent Occlusion of Biliary Metal Stents	Tsuyoshi Hamada the University of Tokyo (Japan)
14:12-14:24	PBF-I 2 Risk for Technical Failure of Endoscopic Multiple Metal Stenting by Stent-in-stent Method for Unresectable Malignant Hilar Biliary Obstruction	Kazumichi Kawakubo Hokkaido University (Japan)
14:24-14:36	PBF-I 3 Diagnostic Yield of Bile Cytology Obtained from Biliary Drainage for Cholangiocarcinoma	Jin Yong Kim University of Ulsan (Korea)
14:36-14:48	PBF-I 4 Peroral Pancreatocopy Using a Spyglass™ System for the Assessment of Intraductal Papillary Mucinous Neoplasm of the Pancreas	Yosuke Nagayoshi Kyushu University (Japan)
14:48-15:00	PBF-I 5 Complications of Stenting Operations on Organs of Gastrointestinal Tract in a Multi-type Hospital.	Grigorii Chechenin Municipal Clinical Hospital Named by S. P. Botkin (Russian Federation)
15:00-15:12	PBF-I 6 The Significance of Hyperechoic Abnormalities on B-mode Eus to Be Considered As Alcohol, Age, Gender, in Early Chronic Pancreatitis	Akane Yamabe Fukushima Medical University (Japan)
15:12-15:24	PBF-I 7 Clinical Impact of Endoscopic Ultrasonography for 10mm or Less in Diameter of Rectal Neuroendocrine Tumors	Jae Hyun Kim Kosin University (Korea)
