

International Symposium 3

JGES-Asian International Joint Symposium-with the 13th Japan Korea Joint Symposium on Gastrointestinal Endoscopy (JKSGE)

5月17日(土) 第7会場 (福岡国際会議場 4F 409+410) 8:30~11:10

I. Interventional EUS 8:30~9:50

- | | | |
|-----------|--|-----------------|
| Moderator | Dept. of Gastroenterology and Hepatology, Tokyo Medical Univ., Japan | Takao Itoi |
| | Dept. of Internal Medicine, Hanyang Univ. Medical Center, Korea | Ho Soon Choi |
| IS3-1-1. | New possibilities of interventional EUS
Dept. of Gastroenterology, Fukushima Medical Univ. Aizu Medical Center, Japan | Atsushi Irisawa |
| IS3-1-2. | EUS-guided celiac plexus neurolysis
Dept. of Gastroenterology, Teikyo Univ. Mizonokuchi Hospital, Japan | Ichiro Yasuda |
| IS3-1-3. | EUS-guided pancreatic fluid drainage
Sungkyunkwan Univ., Samsung Medical Center, Korea | Jong Kyun Lee |
| IS3-1-4. | EUS-guided biliary drainage : Past, present and future
Univ. of Ulsan College of Medicine, Asan Medical Center, Korea | Do Hyun Park |

II. Endoscopic treatments for difficult common bile duct stones 9:50~11:10

- | | | |
|-----------|--|--------------------|
| Moderator | Div. of Gastroenterology and Hepatology, Toho Univ. Omori Medical Center, Japan | Yoshinori Igarashi |
| | Dept. of Gastroenterology, Ajou Univ., Korea | Jin Hong Kim |
| IS3-2-1. | Endoscopic lithotripsy in difficult CBD stone
Institute for Digestive Research, Dept. of Internal Medicine, Soon Chung Hyang Univ., Korea | Young Deok Cho |
| IS3-2-2. | Management of Difficult CBD stones - Surgical endoscopist perspective
Hong Kong Sanatorium & Hospital, Hong Kong | Angus C.W. Chan |
| IS3-2-3. | Optimal indications and method of large balloon dilatation for difficult CBD stone
Div. of Pancreatobiliary, Dept. of Internal Medicine, Kosin Univ., Gospel Hospital, Busan, Korea | Eun Taek Park |
| IS3-2-4. | Peroral cholangioscopy using a mother-baby system for the treatment of difficult bile duct stones
Dept. of Gastroenterology and Nephrology, Chiba Univ., Japan | Toshio Tsuyuguchi |
