

# Third Japan-Korea Joint Symposium on Gastrointestinal Endoscopy

Date : Friday, May 28th, 2004

Venue : Kyoto International Conference Hall, Kyoto, Japan

## Officers ;

### Japan Gastroenterological Endoscopy

Hirohumi Niwa, MD (President, JGES, OMED)

Rikiya Fujita, MD

Eizo Kaneko, MD

Kazuei Ogoshi, MD

Ken-ichi Katsu, MD (Congress President, 67th Congress of JGES)

Tatsuo Yamakawa, MD (Secretary General)

### Korean Society of Gastrointestinal Endoscopy

Yong-Hwan Choi, MD

In-Sik Chung, MD (Chairman of the Executive Board)

Yong Bun Yoon (President, KSGE)

Myung-Gyu Choi, MD (Secretary General)

Dong Ki Lee, MD

Yong-Tae Kim, MD

Young Soo Moon, MD

This symposium is endorsed by :

JAPAN GASTROENTEROLOGICAL ENDOSCOPY SOCIETY (JGES)

THE KOREAN SOCIETY OF GASTROINTESTINAL ENDOSCOPY (KSGE)

ORGANISATION MONDIALE D'ENDOSCOPIE DIGESTIVE (OMED)  
WORLD ORGANIZATION FOR DIGESTIVE ENDOSCOPY

**APSDE**

ASIAN-PACIFIC SOCIETY FOR DIGESTIVE ENDOSCOPY (APSDE)

The 3rd Japan-Korea Joint Symposium on Gastrointestinal Endoscopy

	Room C-1	Room C-2	Event Hall
8 : 30	Opening Ceremony		
9 : 00	Symposium 1 EMR and Laparoscopic Surgery for Gastric Carcinoma Chairpersons : Tatsuo Yamakawa (Japan) Jin Hai Hyun (Korea) (8 : 45-10 : 15)	Video Session I Chairpersons : Seiyo Ikeda (Japan) Chang Duck Kim (Korea) (9 : 00-10 : 30)	
10 : 00	Symposium 2 Technologies of New Diagnostic or Therapeutic Endoscopy and Future Endoscopy Chairpersons : Kazuei Ogoshi (Japan) Ung Suk Yang (Korea) (10 : 30-12 : 00)		Poster Session (No.1-No.7) (10 : 30-12 : 00)
12 : 00	Luncheon Seminar Chairperson : Takao Endo (Japan) (12 : 00-12 : 50)		
13 : 00	State of the Art Lecture Chairpersons : Eizo Kaneko (Japan) Yong-Hwan Choi (Korea) (13 : 15-14 : 15)		
14 : 00	Symposium 3 Quality of Colonoscopy : Effectiveness, Safety ; Outcome Chairpersons : Ken-ichi Katsu (Japan) Kyu Yong Choi (Korea) (14 : 25-15 : 55)		Poster Session (No.8-No.14) (14 : 25-15 : 55)
15 : 00	Symposium 4 Endoscopic Treatment of Pancreatic Diseases Chairpersons : Rikiya Fujita (Japan) Yong Bum Yoon (Korea) (16 : 05-17 : 35)	Video Session II Chairpersons : Choichi Sugawa (USA) Rin Chang (Korea) (16 : 05-17 : 35)	
16 : 00	Closing Ceremony (17 : 35-18 : 00)		
17 : 00	Farewell (at "Sakura") (18 : 00-20 : 00)		

Third Japan-Korea Joint Symposium on Gastrointestinal Endoscopy

Program and Abstracts

<State of the Art Lecture> Barrett's Esophagus and GERD

Chairpersons : Eizo Kaneko (Japan) and Yong-Hwan Choi (Korea)

- SA-1 Yoichi Ajioka (Japan) Pathology of Barrett's Esophagus Epithelium
- SA-2 Young Il Min (Korea) Is the Trend of GERD in Korea?

<Symposium 1> EMR and Laparoscopic Surgery for Gastric Carcinoma

Chairpersons : Tatsuo Yamakawa (Japan) and Jin Hai Hyun (Korea)

- S 1-1 Hiroyuki Ono (Japan) Endoscopic Submucosal Dissection for Early Gastric Cancer
- S 1-2 Joo Young Cho (Korea) Quality of EMR : Accuracy and Safety
- S 1-3 Seigo Kitano (Japan) Minimally Invasive Management for Early Gastric Cancer
- S 1-4 Hyung Ho Kim (Korea) Current Status of Minimally Invasive Surgery for Gastric Cancer in Korea

<Symposium 2> Technologies of New Diagnostic or Therapeutic Endoscopy and Future Endoscopy

Chairpersons : Kazuei Ogoshi (Japan) and Ung Suk Yang (Korea)

- S 2-1 Junko Fujisaki (Japan) Diagnosis of Gastric Cancer Using Narrow Band Imaging
- S 2-2 Jong-Jae Park (Korea) Newly Developed Gastrointestinal Stents
- S 2-3 Kazuyoshi Yagi (Japan) New Endoscopic Diagnosis with Magnifying Endoscopy—*H. pylori*-negative Normal Gastric Mucosa, *H. pylori*-induced Gastritis and Barrett's Esophagus
- S 2-4 Soo Heon Park (Korea) Experience of Wireless Capsule Endoscopy

<Symposium 3> Quality of Colonoscopy : Effectiveness, Safety ; Outcome

Chairpersons : Ken-ichi Katsu (Japan) and Kyu Yong Choi (Korea)

- S 3-1 Yoshiharu Satake (Japan) Indication of Endoscopic Treatment for Early Colorectal Cancers
- S 3-2 Moon-Sung Lee (Korea) Self-expandable Metal Stent through the Scope for Malignant Colorectal Obstruction
- S 3-3 Yasushi Sano (Japan) Diagnostic and Therapeutic Endoscopy for Early Colorectal Cancer
- S 3-4 Hyun-Soo Kim (Korea) Risk Factors of Post-polypectomy Hemorrhage of Colon

<Symposium 4> Endoscopic Treatment of Pancreatic Diseases

Chairpersons : Rikiya Fujita (Japan) and Yong Bum Yoon (Korea)

- S 4-1 Yoshinori Igarashi (Japan) Endoscopic Biliary and Pancreatic Stenting in the Patient with Chronic Pancreatitis
- S 4-2 Dong Wan Seo (Korea) Interventional Role of EUS in Pancreatic Disease
- S 4-3 Hiroyuki Maguchi (Japan) Therapeutic Strategy for Pancreatitis with Pancreatic Stone and/or Pseudocyst
- S 4-4 Ho Gak Kim (Korea) Endoscopic Management of Gallstone Pancreatitis : Who, How & when

**<Video Session I> New Techniques****Chairpersons : Seiyo Ikeda (Japan) and Chang Duck Kim (Korea)**

- V 1-1 Sang-Heum Park (Korea) Y-shaped Endoscopic Sphincterotomy Using a New Sphincter-otome (ISO-TOME) in Patient with Common Bile Duct (CBD) Stone
- V 1-2 Young Koog Cheon (Korea) Laser Induced Lithotripsy using Frequency Doubled Double Pulsed Yag Laser (FREDDY)
- V 1-3 Sung Koo Lee (Korea) Cholangioscopic Ethanol Injection Therapy : as a Palliative Treatment in Hepatocellular Carcinoma with a Bile Duct Tumor
- V 1-4 Sang Soo Lee (Korea) Santorini's Duct Approach through the Minor Papilla in Patients without Pancreatic Divisum
- V 1-5 Kuang-I Fu (Japan) Immediate Colonic Perforation after Therapeutic Endoscopy : Could it be Treated Conservatively by Endoscopic Suture using Hemoclip ?
- V 1-6 Eijiro Morita (Japan) Two Patients with Intestinal Type Crohn's Disease in whom Wireless Capsule Endoscopy was Useful for Clarifying the Condition

**<Video Session II> New Techniques****Chairpersons : Choichi Sugawa (USA) and Rin Chang (Korea)**

- V 2-1 Shigeaki Nagao (Japan) The Clinical Usefulness of New Type of Infrared Videoendoscope for Diagnosing Adenomas and Adenocarcinoma
- V 2-2 Ryoichi Misaka (Japan) A Trial of Endoscopic Mucosal Resection using Two Scopes Method for Early Cancer and Adenomatous Lesion of the Stomach
- V 2-3 Yutaka Saito (Japan) Traction-assisted Colon EMR using a Weight Anchor
- V 2-4 Jin Hong Kim (Korea) Endoscopic Treatment of Gastrointestinal Submucosal Tumor (SMT)
- V 2-5 Kazuyoshi Yagi (Japan) Evaluation of Endoscopic Submucosal Dissection from a Beginner's View Point
- V 2-6 In Seop Jung (Korea) Newly Designed S-type Anti-reflux Valve Esophageal Stent

**<Luncheon Seminar>****Chairperson : Takao Endo (Japan)**

- Manabu Muto (Japan) Field Cancerization Phenomenon of the Esophagus and 'Head & Neck Lesions' in the Upper Aerodigestive Tract — Elucidation of the Mechanism, and its Diagnosis & Treatment —

**<Poster Session 1> Duodenal and Small Intestinal Diseases****Reviewers : Seigo Kitano (Japan) and Jin Ho Kim (Korea)**

- P 1-1 Chang-Hwan Park (Korea) A Prospective, Randomized Trial Comparing Mechanical Method plus Epinephrine Injection alone for Bleeding Peptic Ulcers

- P 1-2 Michihiro Kawada (Japan) Surgical Treatment for Perforated Duodenal Ulcer
- P 1-3 Masaaki Takamura (Japan) A Case of Primary Lymphoma of the Duodenum : Successful Treatment with Radiation Therapy
- P 1-4 Hiroto Kita (Japan) New System of Double-Balloon Enteroscopy for Small Intestinal Disorders
- P 1-5 Nam Hook Kim (Korea) Crohn's Disease of the Upper Gastrointestinal Tract : Endoscopic and Histologic Characteristics and Prevalence of Helicobacter Pylori Infection in Korean Population
- P 1-6 Kazuhiro Funakoshi (Japan) Upper Gastrointestinal Lesions Associated with GVHD Colitis -GVHD Gastro-Duodenitis

**<Poster Session 2> Pancreatic Diseases, Pseudo Cysts and Pancreatitis****Reviewers : Nobuhiro Sato (Japan) and Yong-Tae Kim (Korea)**

- P 2-1 Yong Soo Kim (Korea) Clinical Outcome of Endoscopic Intervention for the Pancreatic Pseudocyst
- P 2-2 Kwang Hyuck Lee (Korea) Outcome and Risk factor Analysis for Endoscopic Drainage in Patients with Pancreatic Pseudocyst
- P 2-3 Moon Hee Song (Korea) Endoscopic Minor Papilla Interventions in Patients without Pancreas Divisum
- P 2-4 Michiaki Shiozaki (Japan) Usefulness of Endoscopic Naso-Pancreatic Duct Drainage in the Treatment of Chronic Pancreatitis
- P 2-5 Myung-Hwan Kim (Korea) Chronic Pancreatitis responsive to Oral Steroid Therapy
- P 2-6 Tomoko Tada (Japan) Pancreatic Function after Treatment for Pancreatic Lithiasis
- P 2-7 Sang Soo Lee (Korea) Does the Additional of Balloon Dilatation to Stent Insertion Decrease Recurrence of Pancreatic Duct Stricture in Patients with Chronic Pancreatitis

**<Poster Session 3> ERCP, EST****Reviewers : Hisao Tajiri (Japan) and Dong Ki Lee (Korea)**

- P 3-1 Takeru Wakatsuki (Japan) A Comparative Study of Diagnostic Value of Cytologic Sampling by EUS-guided Fine Needle Aspiration and that by ERP for the Management of Pancreatic Mass without Biliary Stricture
- P 3-2 Ho Gak Kim (Korea) Additional P53 and K-ras Immunohistochemical Stain can not Enhance the Outcome of Brush Cytology during ERCP
- P 3-3 Eun Young Kim (Korea) Difference of Postendoscopic Biliary Sphincterotomy Complications According to Two Types of Electrosurgical Current in Biliary or Pancreatic Diseases
- P 3-4 Sang-Heum Park (Korea) Precut Papillotomy using a New Phincterotome (iso-Tome)
- P 3-5 Yun-Jun Kim (Korea) The Inflated-balloon-pulling Method is a Useful Method for Estimating the Safe Upper Margin of Endoscopic Sphincterotomy (EST)

**<Poster Session 4> Biliary Disease****Reviewers : Hiromitsu Saisho (Japan) and Sung Koo Lee (Korea)**

- P 4-1 Kwang Ro Joo (Korea) Impacted Papillary Stone: Endoscopic Findings and Clinical Characteristics
- P 4-2 Tae Hyeon Kim (Korea) Endoscopic Transpapillary Laser Lithotripsy using FREDDY Technology for Difficult Common Bile Duct Stones
- P 4-3 Do Hyun Park (Korea) Endoscopic Sphincterotomy versus Endoscopic Papillary Balloon Dilatation for Choledocholithiasis in Liver Cirrhosis with Coagulopathy
- P 4-4 Jong Ho Moon (Korea) Endoscopic Treatment of Difficult Bile Duct Stones using a New Balloon Catheter for Electrohydraulic Lithotripsy without Cholangioscopic Control
- P 4-5 Gen Tohda (Japan) Effectiveness of Self-expandable Metallic Stents for Palliation of Malignant Biliary Obstruction
- P 4-6 Young Eun Joo (Korea) Primary Non-Hodgkin's Lymphoma of the Common Bile Duct Presenting as Obstructive Jaundice
- P 4-7 Ja Young Kim (Korea) Twenty-eight Cases of Primary Sclerosing Cholangitis

**<Poster Session 5> Colonic Diseases, Benign****Reviewers : Nobuo Hiwatashi (Japan) and Won Ho Kim (Korea)**

- P 5-1 Il-Kwon Chung (Korea) The Relationships between Endoscopic, Clinical Features and Unconsciousness in Pseudo-membranous Colitis
- P 5-2 Takaaki Tamayama (Japan) Importance of Bacterial Culture by the Colonoscopic Sampling in Cases with Ischemic Colitis
- P 5-3 Kunio Hayashi (Japan) Cytomegalovirus Colitis, Severe Complication after Consecutive Steroid Pulse Therapy
- P 5-4 Jin Bae Kim (Korea) Colon Polyp Recurrence: Predictors of Early Development of Significant Polyp
- P 5-5 Matatoshi Dohmoto (Japan) A Case of Hemorrhagic Multiple Colonic Polyps for that Endoscopic Therapy was Effective
- P 5-6 Dae Hoon Song (Korea) Expression of Cyclooxygenase 2 in Hamartomatous Polyps of Korean Peutz-Jeghers Syndrome Patients
- P 5-7 Shingo Kato (Japan) Jumbo Biopsy is Effective for Diagnosis of the Colonic Polypoid Prolapsing Mucosal Folds with Diverticulosis
- P 5-8 Sung-Ae Jung (Korea) A Case of Asymptomatic Crohn's Disease Presenting with Giant Polyposis Mimicking Cancer on the Sigmoid Colon
- P 5-9 Seok Ryeol Choi (Korea) A Comparison of Virtual and Conventional Colonoscopy for the Detection of Colorectal Polyp in Korea

**<Poster Session 6> Colon Cancer****Reviewers : Yoshihiro Sakai (Japan) and Hyo Jong Kim (Korea)**

- P 6-1 Hyung Chul Lee (Korea) The Correlation of Expression of P53, BCL-2, MGMT, P16, BAX, GSTP, KI-67 Protein with Neoadjuvant Chemoradiotherapy Responsiveness in Rectal Cancer

- P 6-2 Tsuyotoshi Tsuji (Japan) Close Correlation between the Diameter of the Stalks and Traveling Arteries in a Pedunculated Colon Polyp Accounts for Higher Risk of polypectomy-related Hemorrhage on Polyps with a Thicker Stalk
- P 6-3 Won Ho Kim (Korea) Characteristics and Risk Factors of Synchronous and Metachronous Polyp in Patients with Colorectal Cancer
- P 6-4 Yong Soo Kim (Korea) Colonoscopic Miss Rates of Colonic Polyp in Sequent Colonoscopies
- P 6-5 Akihiko Ohta (Japan) Study on Misdiagnosis by Magnifying Colonoscopy in Colorectal Neoplasm
- P 6-6 Chang Beom Ryu (Korea) Usefulness of a Self-expandable Metal Stent through the Scope for Malignant Colorectal Obstruction
- P 6-7 Sumio Fujinuma (Japan) Clinical Characteristics of Acute Hemorrhagic Rectal Cancer
- P 6-8 Jung Eun Kim (Korea) Analysis of Malignant Colonic Polyps that underwent by Endoscopic Resection

**<Poster Session 7> Miscellaneous Topics****Reviewers : Masayuki A. Fujino (Japan) and Sae-Min Kim (Korea)**

- P 7-1 Moon Hee Yang (Korea) Gastrointestinal Complications after Abdominal Radiation Therapy in Patients with Hepatocellular Carcinoma
- P 7-2 Ji Hyang Kim (Korea) Patients' Preference for Gender of Colonoscopist in Korea
- P 7-3 Suck-Ho Lee (Korea) Endoscopic Features and Clinical Predictors of Gastrointestinal Injury after Acute Paraquat Poisoning
- P 7-4 Won Ho Kim (Korea) The Effect of Prior Abdominal and Pelvic Surgery on Colonoscopy Completion and Insertion Time
- P 7-5 Jeong Min Kim (Korea) Effectiveness of Walking-exercise on Bowel Preparation for Colonoscopy
- P 7-6 Su Youn Nam (Korea) Usefulness of Unsedated Peroral Endoscopy with 6.5mm Endoscope compared with Sedated Endoscopy with Standard Endoscope
- P 7-7 Jin Bae Kim (Korea) The Value of Peracetic Acid (SCOTELIN®) or Endoscopic Disinfection
- P 7-8 Ki Ho Park (Korea) The Safety and Proper Initial Dose of Propofol for Sedation during Esophagogastroduodenoscopy

**<Poster Session 8> Capsule Endoscopy****Reviewers : Choichi Sugawa (USA) and Myung Gyu Choi (Korea)**

- P 8-1 Yong Sik Kim (Korea) Capsule Endoscopy in Obscure Gastrointestinal Bleeding
- P 8-2 Yong Sik Kim (Korea) Analysis of Troubled Cases in Capsule Endoscopy
- P 8-3 Rok Son Choug (Korea) Analysis of Incomplete Small Bowel Investigation in Capsule Endoscopy
- P 8-4 Rok Son Choug (Korea) Interpretation of Capsule Endoscopy: Expert vs. Novice
- P 8-5 Joong Goo Kwon (Korea) Comparison of EUS Features and Histologic Diagnosis of Gastrointestinal Submucosal Tumors

〈Poster Session 9〉 Gastric Cancer, EMR

Reviewers : Junji Yoshino (Japan) and Sang Yong Seol (Korea)

- P 9-1 Seok Reyol Choi (Korea) Factors Affecting the Diagnostic Accuracy of Endoscopic Ultrasonography for Depth of Invasion in Early Gastric Cancer
- P 9-2 Jun Haeng Lee (Korea) Routine Chromoendoscopy in Patients Referred for EMR of Gastric Adenoma or Cancer
- P 9-3 Chikako Eiraku (Japan) Indication for Endoscopic Mucosal Resection of Early Gastric Cancer
- P 9-4 Tsuyoshi Etoh (Japan) Endoscopic Mucosal Resection using an Insulated Diathermic Knife for Early Gastric Cancer : Early Experience
- P 9-5 Dong Seok Lee (Korea) Recurrence Rate and Risk Factors after Endoscopic Mucosal Resection
- P 9-6 Masaaki Kobayashi (Japan) Incidence of Multiple Gastric Cancers before and after Endoscopic Resection
- P 9-7 Suck-Ho Lee (Korea) The Risk Factors of Delayed Post-EMR Ulcer Bleeding in Early Gastric Neoplasm
- P 9-8 Yun Jung Chang (Korea) Factors Associated with Bleeding after Endoscopic Mucosal Resection of Gastric Tumors
- P 9-9 Hyun-Soo Kim (Korea) Risk Factors for Post-EMR Hemorrhage in Patients with Gastric Tumor
- P 9-10 Se-Hee Kim (Korea) Prophylactic Closure of Mucosal Defects for Preventing Complications after EMR
- P 9-11 Hisanao Hamanaka (Japan) Results of Submucosal Dissection EMR using IT Knife
- P 9-12 Jeong-Chae Yang (Korea) Results of Endoscopic Mucosal Resection for Early Gastric Cancer-Factors Influencing Complete Resection-
- P 9-13 Masahiko Sato (Japan) The Usefulness of Mini-laparotomy to Introduce Laparoscopy-assisted Distal Gastrectomy

〈Poster Session 10〉 Gastric Cancer

Reviewers : Tetsuya Mine (Japan) and Jong Sun Rew (Korea)

- P 10-1 Jung Ho Park (Korea) A Clinicoendoscopic Study for the Classification of Gastric Remnant Cancer
- P 10-2 Yoshimichi Kato (Japan) Evaluation of Response to Treatment of Inoperable Gastric Cancers Measuring Tumor Volume using 3-D EUS
- P 10-3 Jun Haeng Lee (Korea) Usefulness of Follow-up Endoscopy after Total Gastrectomy for Gastric Cancer
- P 10-4 Yu Kyung Cho (Korea) The Comparison of Covered and Uncovered Expandable Metal Stents in the Palliation of Malignant Gastric Outlet Obstruction
- P 10-5 Won Jae Yoon (Korea) The Discordance between Endoscopic Forceps Biopsy and Endoscopic Polypectomy Specimen of Gastric Polyps
- P 10-6 Ki-Nam Shim (Korea) A Case of Granular Cell Tumor of the Stomach in a Patient with Extramammary Paget's Diseases

〈Poster Session 11〉 Esophageal Cancer and Diseases

Reviewers : Misao Yoshida (Japan) and Sok Won Han (Korea)

- P 11-1 Shunsuke Ohta (Japan) A Case of Squamous Cell Carcinoma of the Esophagus who Underwent Argon Plasma Coagulation as a Salvage Treatment after Locoregional Failure of Definite Chemradiotherapy
- P 11-2 Chang-Whan Kim (Korea) Immunohistochemical Expression of the P53 and K167 Proteins in Barrett's Esophagus
- P 11-3 Jeong Eun Shin (Korea) Spontaneous Intramural Dissection of the Esophagus in Young Man : Long-term sequential endoscopic observation
- P 11-4 Keisuke Kohga (Japan) Recurrent Spontaneous Intramural Dissection of the Esophagus
- P 11-5 Se Joon Lee (Korea) The Endosonographic Characteristics of Esophageal Leiomyomas Derived from the Muscularis Mucosae

〈Poster Session 12〉 Gastric and Esophageal Varices

Reviewers : Hitoshi Asakura (Japan) and Hoon-Jai Chun (Korea)

- P 12-1 Yun Jung Chang (Korea) Short-term Efficacy of Prophylactic Endoscopic Histoacryl Injection for Gastric Varices with High Risk of Bleeding
- P 12-2 Tadayuki Takagi (Japan) Endoscopic Feature of Gastric Varices Caused by Left-sided Portal Hypertension due to Pancreatic Disease
- P 12-3 Hidemichi Imamura (Japan) EUS Features in Elder Patient with Esophageal Varices ; How to Manage Esophageal Varices in Elderly ?
- P 12-4 Goro Shibukawa (Japan) Endoscopic Treatment for Esophageal Varices with Large Perforating Veins
- P 12-5 Dong Ho Lee (Korea) Long-term Efficacy of Endoscopic Variceal Ligation for Esophageal Variceal Bleeding : The Presence of Portal Hypertensive Gastropathy and Total Number of EVL Sessions were Risk Factors of Bleeding

〈Poster Session 13〉 Peptic Ulcer Disease

Reviewers : Ken Kimura (Japan) and In-Sik Chung (Korea)

- P 13-1 Min Jeong Kim (Korea) The Eradication Rate of *Helicobacter Pylori* Infection in Completed Peptic Ulcer Diseases
- P 13-2 Rok Son Choung (Korea) Quadruple Therapy is an Effective Salvage Regimen for *Helicobacter Pylori* in Patients after Failure of Standard Triple Therapy -Comparison of OMBT 7,14 Days Regimen-
- P 13-3 Hyung Joon Yim (Korea) Evaluation of 13C Urea Breath Test and *Helicobacter Pylori* Stool Antigen Test for Diagnosis of *Helicobacter Pylori* Infection
- P 13-4 Min Jeong Kim (Korea) Reflux Esophagitis after Eradication Therapy for *H. Pylori* in Patients with Peptic Ulcer Disease in Korea
- P 13-5 Hae Won Han (Korea) Efficacy of Gastric Acid Inhibition by Intravenous Ranitidine and Pantoprazole

- P 13-6 Soo-Heon Park (Korea) Rebamipide Prevent the Reduction of Gastric Mucosal Blood Flow and Gastric Mucosal Damage during Ibuprofen Administration in Healthy Volunteers ; Double Blind Placebo Control Study

<Poster Session 14> Gastric Diseases

Reviewers : Kazumasa Miki (Japan ) and Dong Ho Lee (Korea)

- P 14-1 Takashi Kawai (Japan) A Study of Gastritis Topography and Pepsinogen Levels
- P 14-2 Hiroshi Nitta (Japan) A Case of GIST Presenting with a Rapid Change in Shape in a Half a Year
- P 14-3 Eun Taek Park (Korea) Clinical and Pathologic Evaluation of Gastrointestinal Stromal Tumor
- P 14-4 Kap Hyun Kim (Korea) Usefulness of Rockall Score for Predicting Poor Outcomes in Patients with Bleeding Peptic Ulcer
- P 14-5 Eun Jung Lee (Korea) Endoscopic Features of the Interesting Cases of Gastrointestinal Parasitic Infestation
- P 14-6 Kazuei Ogoshi (Japan) Eradication to the Case with Stomal Polypoid Hypertrophic Gastritis -A Case Report-
- P 14-7 Wan Sik Lee (Korea) Endoscopic Management of Huge Phytobezoars
