

The background features a large, faint, light-gray logo for JGES International. It consists of a circular emblem with a stylized endoscopic camera at the top. Inside the circle, the text "JGES" is prominently displayed in a large, bold, sans-serif font. Below "JGES", the words "JAPAN GASTROENTEROLOGICAL ENDOSCOPY SOCIETY" are written in a smaller, stacked, sans-serif font. Below the circular emblem, the word "International" is written in a bold, italicized, sans-serif font.

ASGE and JGES continue their educational collaboration in bringing advanced techniques to endoscopists in the U.S. and Canada. Discover advanced methods of ESD from faculty presentations, including skills-based training of these techniques by the masters in ex vivo and animate models.

Numerous aspects of ESD will be covered with updates and to understand how you'll learn and engage with the master endoscopist faculty, please review the agenda. As you engage in the hands-on and case-based learning sessions, you'll receive tailored instruction based on your needs.

JGES “STARS” Program

- JGES Supports Training of Asian Rising Stars -

There are no words to express my gratefulness for the time I was training at DMUH in the JGES STARS program. I hope that the JGES STARS program will continue and reach its hand to the limited resources regions in improving the endoscopic knowledge and skills in these countries.

The doctors are very kind. They explained a lot. I saw many cases of ESD, EMR. I would like to ask for having this program for other Cambodian doctors.

I enjoyed in Tokyo University Hospital and JGES congress, so that was big experiences in my career and it will be very good opportunity to our endoscopy development.

I had a wonderful learning experience in Gifu University Hospital under the mentorship of Professor Shimizu, Professor Takuji Iwashita and the whole pancreatico-biliary team.
