

DR. YOUSRA LAABID

3rd-Year Resident in Gastroenterology

Gastroenterology Department, Mohammed VI University Hospital, Tangier, Morocco

PROFILE

Third-year Gastroenterology resident at Mohammed VI University Hospital, Tangier, Morocco. Clinical interests include digestive endoscopy, hepatology, inflammatory bowel disease, colorectal diseases and proctology. Active in clinical research with publications and presentations at national and international meetings. She graduated from the Faculty of Medicine and Pharmacy of Fez in 2022 with a Doctor of Medicine degree awarded with the highest honors ("Mention très honorable"), jury commendation, and the thesis prize.

CLINICAL BACKGROUND

Two years as a medical intern across hospitals in the Meknes region, with rotations in pediatrics-neonatology, gynecology-obstetrics and emergency care, plastic and burn surgery, dermatology, and community health. She subsequently worked as a general practitioner in private practice and as an emergency doctor before beginning her gastroenterology specialization.

TECHNICAL EXPERTISE

Diagnostic and therapeutic upper and lower digestive endoscopy, hepatobiliary ultrasound, and proctology, including initiation to therapeutic endoscopic procedures.

SCIENTIFIC ACTIVITY

Co-author of publications on liver disease in pregnancy and inflammatory bowel disease (Journal IJAR). Author and co-author of multiple oral and poster presentations at national and international congresses, including the Moroccan Society of Digestive Endoscopy (SMED) and the Moroccan Society of Digestive Diseases (SMMAD).
